BUILDING A CHATBOT:

Web link : <https://site174672.nicepage.io/?version=9178ea5b-92e2-4506-9341-79dde058766c&uid=73e60d72-c070-4c5d-9d3d-843e23b504f6>

The screenshot shows a web browser displaying a website with a yellow header and a pink main content area. The header contains navigation links: HOME, ABOUT, and CONTACT US. The main content area is titled "Home Page" and "OUR PRODUCTS". It features four product categories: Mens, Boys, Women, and Girls. Each category has a representative image and an "ADD TO CART" button. A chatbot overlay titled "Watson Assistant" is visible on the right side of the page. The chatbot interface includes a home icon, a title bar, and a chat area. The chat area shows a conversation where the chatbot introduces itself as "Hari Haran" and asks the user to select their gender. The user has selected "Male". The chatbot then asks for the user's age range, and the user has selected "1 - 10". The chatbot concludes the session by stating it is inactive and suggests refreshing the page to continue the conversation. The chatbot is built with IBM Watson.
